

Patient Handling Plus for Physiotherapists

Friday 31st May 2024, Auckland

THIS COURSE DEVELOPS SKILLS FROM DAY ONE: PRACTICE TO TRAINING

BUILD ON SKILLS

- Update your patient handling and training skills in a collegial environment
- Gain confidence with using and demonstrating a range of equipment common in aged care and community settings
- Consider biomechanical and ergonomic principles for training sessions
- Understand implications of legislation, standards and guidelines

THIS IS YOUR COURSE IF YOU...

- ✓ Train care staff in aged care facilities or the community
- ✓ Support families with safe patient handling
- ✓ Align with best practice, legislation and guidelines for worker and patient safety
